AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1.   (Currently Amended) A method for executing transactions in a system that enables financial transactions through a̲ wireless communication network ~~characterised in that~~ wherein a request for approval is sent to a payee's mobile handset or connectable electronic device, when a simple payment is sent by a payer to the payee.

2.   (Currently Amended) A method according to claim 1 ~~characterised in that~~ wherein the approval or rejection of payment by the payee is validated by inputting authentication data selected from the group comprising a password, ~~or by another mean like~~ finger print authentication ~~mechanism~~, or ~~voice~~ authentication ~~mechanism, or~~ and face authentication ~~mechanism~~.

3.   (Currently Amended) A method according to ~~claims 1 or 2 characterised in that~~ claim 1 wherein the approval or rejection decision is sent to a Transaction Processing Platform through the wireless communication network in a data file containing a digital signature of the content of the file.

4.   (Currently Amended) A method according to claim 3 ~~characterised in that~~ wherein the data file is encrypted before being sent.

5.   (Currently Amended) A system that enables financial transactions through a wireless communication network, ~~characterised In that~~ wherein a subscriber to the financial transaction service can open[,] at least one special list of Financial Transaction Accounts associated ~~to~~ with his/her own account.

6.   (Currently Amended) A system according to claim 5 ~~characterised in that~~ wherein financial transactions made with the accounts included in said special list ~~shall~~ follow at least one particular rule.

7.   (Currently Amended) A system according to claim 6 ~~characterised in that~~ wherein the particular rule or rules are checked and implemented by ~~the~~ a Transaction Processing Platform.

8.   (Currently Amended) A system according to claim 6 ~~characterised in that~~ wherein the particular rule or rules are checked and implemented by ~~the~~ at least one of a mobile handset or ~~the~~ a connectable electronic device and/or ~~the~~ a Subscriber Identity Module.

9.   (Currently Amended) A system according to ~~any one of claims 5 to 8~~ ~~characterised in that~~ claim 5 wherein the subscriber can remove from his/her special list or add to his/her special list one or more accounts directly from his mobile handset or connectable electronic device, or by internet.

10.   (Currently Amended) A system according to ~~any one of claims 5 to 9~~

~~characterised in that~~ <u>claim 5 wherein</u> a subscriber can include in his/her

special list all other Financial Transaction Accounts that exist in the system.

11.   (Currently Amended) A system according to ~~any one of claims 5 to 10~~

~~characterised in that~~ <u>claim 7 wherein</u> the all the existing special lists in the

system are stored in a database or in files managed and/or interfaced with the

Transaction Processing Platform.

12.   (Currently Amended) A system according to ~~any one of claims 5 to 11~~

~~characterised in that~~ <u>claim 5 wherein</u> the special lists of a subscriber are

stored in part or in totality in a memory of his/her mobile handset or

connectable electronic device, and/or in the memory of ~~the~~ <u>a</u> Subscriber

Identity Module.

13.   (Currently Amended) A system according to ~~claims 7 or 8 characterised in~~

~~that~~ <u>claim 7 wherein</u> the rule defining a special list is: no transaction allowed

with accounts included in this special list.

14.   (Currently Amended) A system according to ~~claims 7 or 8 characterised in~~

~~that~~ <u>claim 7 wherein</u> the rule defining a special list is: no request for approval

required in a simple payment transaction if payer's account is included in ~~the~~

said special list.

15. (Currently Amended) A system according to ~~claims 7 or 8 characterised in~~ ~~that~~ claim 7 wherein the rule defining a special list is: only simple payments from accounts included in ~~the~~ said special list shall be rejected.

16. (Currently Amended) A system according to ~~claims 7 or 8 characterised in~~ ~~that~~ claim 7 wherein the rule defining a special list is: no simple payment transaction shall be sent to accounts included in said special list.

17. (Currently Amended) A system according to ~~claims 7 or 8 characterised In~~ ~~that~~ claim 7 wherein the rule defining a special list is: no payment request from accounts included in said special list shall be accepted.

18. (Currently Amended) A system according to ~~claims 7 or 8 characterised in~~ ~~that~~ claim 7 wherein the rule defining a special list is a combination of at least two ~~of the~~ rules ~~included in claims 13 to 17~~.

19. (Currently Amended) A system that enables financial transactions through a wireless communication network ~~characterised in that~~ wherein a ~~the~~ Financial Transaction Account number of a subscriber can be read automatically by another subscriber with an automatic reading method and/or device.

20. (Currently Amended) A system according to claim 19 ~~characterised in that~~ wherein the Financial Transaction Account number is printed in a barcode format on a card.

21. (Currently Amended) A system according to claim 19 ~~characterised in that~~ wherein the Financial Transaction Account number is printed in a barcode format on a sticker affixed on ~~the~~ a mobile handset or ~~the~~ a connectable electronic device.

22. (Currently Amended) A system according to claim 19 ~~characterised in that~~ wherein the Financial Transaction Account number is sent to the other subscriber's mobile handset or connectable electronic device through ~~the~~ an Infrared interface.

23. (Currently Amended) A system according to claim 19 ~~characterised in that~~ wherein the Financial Transaction Account number is stored in a contactless electronic microcircuit, and can be read by a contactless reader.

24. (Currently Amended) A system according to claim 19 ~~characterised in that~~ wherein the Financial Transaction Account number is stored in ~~the~~ a Subscriber Identity Module which has a contactless Interface which can be read by a contactless reader.

25. (Currently Amended) A system according to claim 19 ~~characterised in that~~ wherein the Financial Transaction Account number is sent to the other subscriber's mobile handset or connectable electronic device through a short range radio interface ~~like Bluetooth or WiFi~~.

26.   (Currently Amended) A Payment Request method in a system that enables financial transactions through a wireless communication network ~~characterised in that~~ wherein, when displaying the request on ~~the~~ a payer's mobile handset or connectable electronic device, the name or the brand of ~~the~~ a payee is displayed instead of the payee's account number.

27.   (Currently Amended) A Payment Request method in a system that enables financial transactions through a wireless communication network ~~characterised in that~~ wherein, when displaying the request on ~~the~~ a payer's mobile handset or connectable electronic device, the logo of ~~the~~ a payee or an image chosen by the payee is displayed instead of the payee's account number.

28.   (Currently Amended) A Payment Request method in a system that enables financial transactions through a wireless communication network ~~characterised in that~~ wherein, when displaying the request on ~~the~~ a payer's mobile handset or connectable electronic device, an audible message is broadcast by the payer's handset.
